Q: I am buying a group of calves around 250lbs, what feed is best for them?

A: We recommend choosing from one of our calf starter feeds (14%, 16%, or 18% protein) and offering some form of roughage daily such as hay or clean straw along with free choice fresh water.

Q: How long should I feed the calf starter?

A: Calves can be fed a calf starter until they're around 550lbs. Then they should be switched to a higher energy diet to help them develop correctly as a market animal.

Q: Can I pay with a credit card?

A: At this time, only our Delta location accepts payment by credit or debit card.

Q: When is my payment due?

A: Statements are sent out the beginning of each month. Payment is due by the 10th day of the month.
